HISTORY

The school was founded by Mrs. Indiana Fletcher Williams, who died in November, 1900, leaving the bulk of her estate, consisting of over eight thousand acres of land and over a half million dollars, in trust, to the Right Reverend A. M. Randolph, Bishop of Southern Virginia, the Reverend T. M. Carson of Lynchburg, Virginia, Stephen R. Harding of Amherst County, Virginia, and the Reverend Arthur P. Gray of Amherst, Virginia. She directed these Trustees to procure the incorporation in the state of Virginia of a corporation to be called "Sweet Briar Institute," and to turn over to it all property left them in trust. She provided that this corporation should be controlled by a Board of seven Directors, the first members of which should be appointed by the Trustees. The Directors were to have power to fill vacancies in their number.

The intention of the founder with regard to the kind of institution which should be established is expressed in the following extract from her will: "The said corporation shall with suitable dispatch establish and shall maintain and carry on upon the said plantation a school or seminary to be known as the 'Sweet Briar Institute' for the education of white girls and young women. It shall be the general scope

and object of the school to impart to its students such an education in sound learning, and such physical, moral, and religious training as shall in the judgment of the Directors best fit them to be useful members of society."

The school was chartered in February, 1901, according to the conditions of the will, with a self-perpetuating Board of Directors, consisting of the following members: The Right Reverend A. M. Randolph, the Reverend T. M. Carson, the Reverend Arthur P. Gray, Stephen R. Harding, the Reverend Carl E. Grammer, Dr. J. M. McBryde, Judge Legh R. Watts.

At their first meeting held in March, 1901, the Board of Directors formulated the policy of the school in the following paper: "Untrammelled by state or denominational control, or by the testamentary direction of a will, and, therefore, relieved of the necessity of bidding for popular favor through the employment of adventitious or temporary expedients, it is the declared wish and purpose of its Board of Directors to give such shape and scope to Sweet Briar Institute as will make it a worthy monument to the liberality of its founder and the first among the establishments for female education in the state and the south. Believing that it would be unwise for the new institution to enter upon fields of educational activity already fully occupied, or to come into unnecessary competition with existing seminaries of learning, it is our desire to have it take possession of a territory

hitherto overlooked and neglected. In the north the demand for collegiate instruction for women, fully equal in character to that offered the men by such institutions as Harvard, Princeton, Columbia and Yale, has resulted in the foundation of Vassar, Wellesley, Smith and Bryn Mawr. In the west and south the demand for better equipment of women for the practical vocations of life has led to the establishment of several excellent normal and industrial schools exclusively for girls. But nowhere, to our knowledge, has the attempt been made harmoniously to combine in one institution the best features of these two classes of schools. Holding that such combination is neither impossible nor impracticable, but rather that industrial training can be made, if only a safe equilibrium be provided for, to supplant, strengthen and enrich the intellectual, it is our resolve that the Sweet Briar Institute shall attempt this new line of educational effort. Standing for a policy and work distinctly and peculiarly its own, it will offer to the young women of the south carefully formulated courses of study leading to degrees, of high grade and proper adaptation to the needs and capabilities of the female mind—some literary and some scientific—and along with them thoroughly practical training in certain artistic and industrial branches of knowledge—the two lines of work so arranged and coördinated that the choice of any one of the four years' courses will carry with it the election of a given number of the practical branches. These courses, of necessity few in number

at first, will be added to as the growth and development of the institution may call for them, and experience dictate their character and scope. The specification and formulation of these courses must await the future action of the Board, when it can have the assistance of the President and Faculty to be elected later on."

Though the founder was an Episcopalian and named Episcopalians as trustees, she made no conditions as to the denominational character of the school; and the Directors decided that the school should be non-denominational.

Immediately after the organization of the school, plans for its material equipment were made and carried out. By the bequest of the founder, the school owns the old homestead, Sweet Briar House, a spacious building which is furnished entirely with the handsome old furniture which belonged to Mrs. Williams. The building contains beautiful parlors, guest rooms, and the offices of the administrative officers.

The school buildings proper were designed by a leading firm of Boston architects. Plans were made for a group of sixteen buildings, connected by arcades, of a uniform style of architecture. The buildings are all to be of red brick with white trimmings. There will be two quadrangles, one residential, consisting of eight dormitories, a chapel and a refectory, and one academic, containing the academic building proper, the art building, the library, science hall,

industrial building and gymnasium. Of the plant, four buildings were erected before the opening of the college; these are, the academic building, two dormitories, and the refectory. A third dormitory was erected in 1908, and was occupied in September of that year. In addition to these, there are four houses for the residence of the teachers, a steam laundry, a cold storage house and creamery, and a power house. The buildings are heated by steam and lighted by electricity.

In connection with the school a farm is maintained which supplies fruits and vegetables; and a dairy furnishes rich milk, cream and other dairy products.

EQUIPMENT

Sweet Briar possesses natural and artistic advantages which belong to few schools. Situated among the Blue Ridge Mountains, one thousand feet above the sea level, the school is in a healthful and invigorating climate, neither too rigorous nor too enervating. With a group of buildings in harmony with each other and with the surroundings, the effect is most pleasing. From the buildings, the view is extensive and beautiful; the range of the Blue Ridge stretches away in full sight for nearly a hundred miles, and the rolling country about is very attractive.

As the grounds around the school, about three thousand acres, are owned by the institution, it has an unusual opportunity to control surrounding conditions.

Out-of-door sports form an important part of the school life. A large lake gives opportunity for rowing and skating; there are tennis courts, basket-ball grounds, hockey fields, and a golf course.

The dormitories are furnished comfortably and attractively, and have every modern convenience. Rooms are arranged in suites, where two girls have three rooms; there are also some rooms where two girls occupy one room; and there are some single rooms. Each dormitory has its reception room for social gatherings.

The academic building contains large, well-lighted classrooms, an art studio and laboratories for chemistry, physics, biology, and domestic science. These laboratories are supplied with everything necessary for the courses in science offered in the curriculum. In this building is a reading room and library.

AIM

The aim of the school is to be a college of the first rank. The requirements for admission to the collegiate work and the conditions of graduation are high—fully equal to those of other colleges of the first rank. There are sub-freshman classes which cover work corresponding to that done in the last two years of a four years' high school course.

REQUIREMENTS FOR ADMISSION

ADMISSION TO THE SUB-FRESHMAN CLASS

Students are admitted to the sub-freshman class without examination upon the presentation of statements from preparatory schools showing that they have satisfactorily completed at least two years of high school work. The work that should be completed before entrance to the sub-freshman class is as follows:

English.—Some reading of American or English classics, grammar, and composition.

History.—Elementary work in English, French, Ancient, or United States history.

Mathematics.—One year of algebra.

Latin.—One year of Latin grammar. Four books of Cæsar's Gallic war.

It is desirable that a student should have had one year of either French or German, but one of these languages may be begun in the sub-freshman class.

ADMISSION TO THE FRESHMAN CLASS

Applicants for admission to the freshman class must be at least sixteen years of age and must offer work amounting to fifteen units* as follows:

English, three units;

History, one unit;

*A unit means a year's work, of five recitations a week.

Mathematics, three units;

Latin, four units;

Second language, three units;

French (maximum), or German (maximum),
or Greek.

Third language or science, one unit.

German (minimum), or French (minimum),
or Physics, or Chemistry, or Botany.

Candidates will not be admitted to the freshman class if conditioned in more than two subjects.

In detail the requirements* are:

ENGLISH (3 Units)

No candidate will be accepted in English whose work is notably deficient in point of spelling, punctuation, grammar, idiom or division into paragraphs.

(a) READING AND PRACTICE.—A certain number of books will be recommended for reading, ten of

*These requirements correspond in every essential detail with those adopted by the New England and Middle States Association of Colleges and Preparatory Schools. Teachers, parents, and candidates for admission to any of the leading colleges north and south will do well to procure copies of the documents issued by the College Entrance Examination Board, Post Office Sub-Station 84, New York. These pamphlets give detailed information as to the requirements for admission to all the foremost colleges of the country. Much of what follows is taken from Document No. 20.

The question papers set at the examinations of each year are published in book form by Ginn & Company, Boston. The volumes, which may be obtained through any booksellers, are sold at 60 cents each. If ordered direct from the publishers, five cents additional should be remitted for postage.

which, as prescribed below, are to be offered for examination. The form of the examination will usually be the writing of a paragraph or two on each of several topics, to be chosen by the candidate from a considerable number—perhaps ten or fifteen—given in the examination paper. The treatment of these topics is designed to test the candidate's power of clear and accurate expression, and will call for only a general knowledge of the substance of the books. In every case knowledge of the book will be regarded as less important than the ability to write good English. In place of a part or a whole of this test, the candidate may present an exercise book, properly certified by her instructor, containing compositions or other written work done in connection with the reading of the books. In preparation for this part of the requirement, it is important that the candidate shall have been instructed in the fundamental principles of rhetoric.

In 1909, 1910, and 1911 ten books, *and in 1912 nine books*, selected from the following list as prescribed below, are to be offered for entrance:

GROUP I. (Two to be selected.)—Shakspeare's *As You Like It*, *Henry V*, *Julius Cæsar*, *The Merchant of Venice*, *Twelfth Night*.

GROUP II. (One to be selected.)—Bacon's *Essays*; Bunyan's *The Pilgrim's Progress*, Part I; *The Sir Roger de Coverley Papers* in *The Spectator*; Franklin's *Autobiography*.

GROUP IV. (Two to be selected.)—Goldsmith's *The Vicar of Wakefield*; Scott's *Ivanhoe* and *Quentin Durward*; Hawthorne's *The House of the Seven Gables*; Thackeray's *Henry Esmond*; Mrs. Gaskell's *Cranford*; Dickens's *A Tale of Two Cities*; George Eliot's *Silas Marner*; Blackmore's *Lorna Doone*.

GROUP V. (Two, but in 1912 one, to be selected.)—Irving's *Sketch Book*; Lamb's *Essays of Elia*; De Quincey's *Joan of Arc* and *The English Mail Coach*; Carlyle's *Heroes and Hero Worship*; Emerson's *Essays* (Selected); Ruskin's *Sesame and Lilies*.

GROUP VI. (Two to be selected.)—Coleridge's *The Ancient Mariner*; Scott's *The Lady of the Lake*; Byron's *Mazeppa* and *The Prisoner of Chillon*; Palgrave's *Golden Treasury* (First Series), Book IV, with especial attention to Wordsworth, Keats, and Shelley; Macaulay's *Lays of Ancient Rome*; Poe's *Poems*; Lowell's *The Vision of Sir Launfal*; Arnold's *Sohrab and Rustum*; Longfellow's *The Courtship of Miles Standish*; Tennyson's *Gareth and Lynette*, *Lancelot and Elaine*, and *The Passing of Arthur*, but in 1912 Tennyson's *The Princess* is substituted; Browning's *Cavalier Tunes*, *The Lost Leader*, *How They Brought the Good News from*

Ghent to Aix, Evelyn Hope, Home Thoughts from Abroad, Home Thoughts from the Sea, Incident of the French Camp, The Boy and the Angel, One Word More, Hervé Riel, and Pheidippides.

(b) STUDY AND PRACTICE.—This part of the examination presupposes the thorough study of each of the works named below. The examination will be upon subject-matter, form, and structure. In addition, the candidate may be required to answer questions involving the essentials in English grammar, and questions on the leading facts in those periods of English literary history to which the prescribed works belong.

In connection with the reading and study of the required books, parallel or subsidiary reading should be encouraged, and a considerable amount of English poetry should be committed to memory. The essentials of English grammar should not be neglected in preparatory study.

The books prescribed for this part of the examination are as follows:

In 1909, 1910, and 1911: Shakspeare's *Macbeth*; Milton's *Lycidas, Comus, L'Allegro*, and *Il Penseroso*; Burke's *Speech on Conciliation with America*, or Washington's *Farewell Address*, and Webster's *First Bunker Hill Oration*; Macaulay's *Life of Johnson*, or Carlyle's *Essay on Burns*.

In 1912: Shakspeare's *Macbeth*; Milton's *Comus, L'Allegro*, and *Il Penseroso*, or Tennyson's *Gareth and Lynette, Lancelot and Elaine*, and *The Passing*

of Arthur; Burke's Speech on Conciliation with America, or Washington's Farewell Address, and Webster's First Bunker Hill Oration; Macaulay's Life of Johnson, or Carlyle's Essay on Burns.

HISTORY (1 Unit)

The candidate may elect any one of the following subjects:

(a) Ancient history, with special reference to Greek and Roman history. A short introductory study of the more ancient nations is desirable, as well as a brief sketch of the main events in the Middle Ages, from the fall of Rome to the death of Charlemagne.

(b) French history, with especial reference to such general features of European history as feudalism, the church, the reformation, etc.

(c) English history, with reference to the social as well as the political development.

(d) American history and elementary civil government.

Each of the foregoing topics is intended to represent one full year's course with five recitations a week, or two years with three hours a week.

The student is expected to be able to handle any of the standard preparatory text-books, such as Andrews's *History of England*, or West's *Ancient History*; to have acquired a sufficient historical vocabulary to enable her to read the more advanced

works intelligently, and to have had some little training in the writing of abstracts. The student is expected, also, to have had some practice in the drawing of maps, and may be called on in examination to show her knowledge of geography either by her own drawings, or by the location of places on an outline map.

Students entering on certificate are expected to have taken the course in history, not earlier than the third or fourth year of high school work.

Roman history is recommended as affording the best preparation for the freshman course.

MATHEMATICS (3 Units)

(a) ALGEBRA.—(1) To Quadratics: The four fundamental operations for rational algebraic expressions; factoring, determination of highest common factor and lowest common multiple by factoring; fractions, including complex fractions, ratio and proportion; linear equations, both numerical and literal, containing one or more unknown quantities; problems depending on linear equations; radicals, including the extraction of the square root of polynomials and of numbers; exponents, including fractional and negative.

the formulas for the n th term and the sum of the terms of arithmetical and geometrical progressions, with applications.

It is assumed that pupils will be required throughout the course to solve numerous problems which involve putting questions into equations. Some of these problems should be chosen from mensuration, from physics, and from commercial life. The use of graphical methods and illustrations, particularly in connection with the solution of equations, is also expected.

(b) PLANE GEOMETRY.—The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurements of angles; similar polygons; areas; regular polygons and the measurement of the circle; the solution of numerous original exercises, including loci problems; application to the mensuration of lines and plane surfaces.

FRENCH (3 Units or 1 Unit)

MINIMUM REQUIREMENT.—(1 unit).

(1) Careful drill in pronunciation; (2) the rudiments of grammar, including the inflection of the more common irregular verbs, the plural nouns, the inflection of adjectives, participles, and pronouns; the use of personal pronouns, common adverbs, prepositions, and conjunctions; (3) abundant easy exercises, designed not only to fix in the memory the form and principles of grammar, but also to cultivate readiness in the reproduction of natural forms of expression; (4) writing French from dictation; memorizing prose; (5) the reading of from 300 to 350 duodecimo pages of graduated texts, of which about one-third should be in the dramatic form. Suitable texts can be chosen from the following: Bruno's *Le Tour de la France*; Labiche and Martin's *La Poudre aux Yeux* and *Le Voyage de M. Perri-chon*; Le Brète's *Mon Oncle et Mon Curé*; Merimée's *Colomba*; Lamartine's *Graziella*; Daudet's *Contes Choisis* and *La Belle-Nivernaise*; Sarcey's *Le Siègle de Paris*; Moineaux's *Les Deux Sourds*; Roman d'un *Jeune Homme Pauvre* (play); Ludovic Halévy's *L'Abbé Constantin* (play).

MAXIMUM REQUIREMENT.—(3 units).

The work to be done should comprise, *in addition* to that of the minimum requirement, the reading of about 800 pages of French of ordinary difficulty, a portion to be in the dramatic and historical form;

constant practice in giving French paraphrases, abstracts or reproductions from memory of selected portions of the matter read; a thorough study of idioms and important points in syntax; writing from dictation. At the end of this course the pupil should be able to read at sight ordinary French prose or simple poetry, to translate into French a connected passage of English based on the text read, to understand simple spoken French, and to take notes in that language.

Suitable texts are: Augier and Sandeau's *Le Gendre de M. Poirier*; Canfield's French lyrics; Coppée's poems; Daudet's *La Belle-Nivernaise*; La Brète's *Mon Oncle et Mon Curé*; Hugo's *Hernani* and *Les Misérables*; Labiche's plays; Loti's *Pêcheur d'Islande*; Mignet's historical writings; George Sand's stories; Sandeau's *Mademoiselle de la Sieglère*; Scribe's plays; Thierry's *Recits des Temps Mérovingiens*; Thier's *L'Expédition de Bonaparte en Égypte*; Vigny's *La Canne de Jonc*, etc., etc.

GERMAN (3 Units or 1 Unit)

MINIMUM REQUIREMENT.—(1 unit).

FIRST YEAR: (1) Careful drill on pronunciation; (2) the memorizing of easy colloquial sentences; (3) drill on the rudiments of grammar, that is, on the inflection of the articles, of such nouns as belong to the language of every-day life, of adjectives, pronouns, weak verbs, and the more usual strong verbs; also on the use of the more common prepositions, the simpler

uses of the modal auxiliaries, and the elementary rules of syntax and order of words; (4) abundant easy exercises designed not only to fix in mind the forms and principles of grammar, but also to cultivate readiness in the reproduction of natural forms of expression; (5) the reading of about 200 pages of graduated texts, with constant practice in translating into German easy variations upon sentences selected from the reading lesson (the teacher giving the English), and in the reproduction from memory of sentences previously read.

Stories can be selected from the following list: Andersen's *Märchen* and *Bilderbuch ohne Bilder*; Arnold's *Fritz auf Ferien*; Baumbach's *Die Nonna* and *Der Schwiegersohn*; Gerstäcker's *Germelshausen*; Heyse's *L'Arrabbiata*, *Das Mädchen von Treppi*, and *Anfang und Ende*; Hillern's *Höher als die Kirche*; Jensen's *Die braune Erica*; Leander's *Träumereien* and *Kleine Geschichten*; Seidel's *Märchen*; Stökl's *Unter dem Christbaum*; Storm's *Immensee* and *Geschichten aus der Tonne*; Zschokke's *Der Zerbrochene Krug*.

Good plays adapted to the elementary courses are much harder to find than good stories. Five-act plays are too long. They require more time than it is advisable to devote to any one text. Among shorter plays the best available are perhaps: Benedix's *Der Prozess*, *Der Weiberfeind*, and *Günstige Vorzeichen*; Elz's *Er ist nicht eifersüchtig*; Wichert's *An der Majorsecke*; Wilhelmi's *Einer muss heiraten*. It is

recommended, however, that not more than one of these plays be read. The narrative style should predominate. A good selection of reading matter would be Andersen's *Märchen* or *Bilderbuch*, or Leander's *Träumereien*, to the extent of, say, forty pages. After that, such a story as *Das Kalte Herz*; or *Der Zerbrochene Krug*; then *Höher als die Kirche*, or *Immensee*; next, a good story by Heyse, Baumbach, or Seidel; lastly *Der Prozess*.

MAXIMUM REQUIREMENT.—(3 units).

The work to be done should comprise, *in addition* to that of the minimum requirement, the reading of about 500 pages of moderately difficult prose and poetry, with constant practice in giving, sometimes oral and sometimes written, paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; also grammatical drill on the less usual strong verbs, the use of articles, cases, auxiliaries of all kinds, tenses and modes (with special reference to the infinitive and subjunctive), and likewise on word-order and word-formation.

Suitable reading matter can be selected from such works as the following: Ebner-Eschenbach's *Die Freiherren von Gemperlein*; Freytag's *Die Journalisten* and *Bilder aus der Deutschen Vergangenheit*,—for example, *Karl der Grosse*, *Aus den Kreuzzügen*, *Doktor Luther*, *Aus dem Staat*, *Freidrich's des Grossen*; Fouqué's *Undine*; Gerstäcker's *Irrfahrten*; Goethe's *Hermann und Dorothea* and *Iphigenie*; Heine's poems and *Reisebilder*;

Hoffmann's *Historiche Erzählungen*; Lessing's *Minna von Barnhelm*; Meyer's *Gustav Adolf's Page*; Moser's *Der Bibliothekar*; Riehl's *Novellen*,—for example, *Burg Neideck*, *Der Fluch der Schönheit*, *Der Stumme Ratsherr*, *Das Spielmannkind*; Rosegger's *Waldheimat*; Schiller's *Der Neffe als Onkel*, *Der Geisterseher*, *Wilhelm Tell*, *Die Jungfrau von Orleans*, *Das Lied von der Glocke*, *Balladen*; Scheffel's *Der Trompeter von Säckingen*; Uhland's poems; Wildenbruch's *Das edle Blut*.

At the end of this course the pupil should be able to read at sight German prose of ordinary difficulty, whether recent or classical; to put into German a connected passage of simple English, paraphrased from a given text in German; to answer any grammatical questions relating to usual forms and essential principles of language, including syntax and word-formation, and to translate and explain (so far as explanation may be necessary) a passage of classical literature taken from some text previously studied. (*)

CHEMISTRY (1 Unit)

The preparation in chemistry should cover at least one full session, with three recitations a week, and should include the study of one standard text-book, to the end that the pupil may gain a comprehensive and connected view of the most important facts and

(*) These requirements follow the recommendations of the Committee of Twelve of the Modern Language Association.

laws of elementary chemistry. In addition to the three recitations, four periods weekly should be devoted to practical tests and experiments performed by the students individually under the direction of the teacher. (*) Every candidate must present at the time of, and as a part of, the examination in chemistry a note-book containing in the candidate's own language a description of her laboratory exercises, the steps, observations, and results of each exercise being carefully recorded. The record should be well-ordered, plainly legible, and concise. The note-book must bear the endorsement of the teacher, certifying that the notes are a true record of the student's work.

PHYSICS (1 Unit)

The requirements in physics are in every respect similar to those in chemistry. The candidate is required to have studied for a full session one standard text-book and to have done individual laboratory work. As in chemistry, she must be prepared to show her laboratory note-book, properly certified by her instructor.

BOTANY (1 Unit)

The preparation in botany should cover at least one full session, and should include individual

laboratory work. The course should comprise: (1) The general principles of (a) Anatomy and Morphology, (b) Physiology, and (c) Ecology; (2) The natural history of the plant groups, and classification. For further details see Document No. 20 of the College Entrance Examination Board already referred to.

CERTIFICATES

The college will accept, instead of examinations, certificates from schools doing standard college preparatory work, whose pupils are admitted on certificate to other colleges of the first rank. Application for admission on certificate should be made to the President, and should be accompanied by a full statement of the college preparatory course offered by the school, and the amount of work done by the student who wishes to enter.

ADMISSION TO SPECIAL COURSES

Students who do not intend to be candidates for degrees may, under some circumstances, offer other subjects for entrance than those outlined above. Such students will need to make special arrangements with the President and take examinations or present certificates as required.

ADMISSION TO ADVANCED STANDING

Students will be admitted to the sophomore, junior, or senior class upon presentation of certificates from

other colleges of recognized standing or upon examination. No student will be allowed to graduate with less than one year of residence work.

DEGREES

The A. B. degree is the only degree given at present.

COURSES OF INSTRUCTION

SUB-FRESHMAN COURSES

ENGLISH

Course 1.

COMPOSITION AND LITERATURE.—The work in composition will begin with the sentence and advance toward the paragraph. Grammar will be reviewed in a study of the relations which words, phrases and clauses have one to the other in the sentence. A study of these relations is further designed to establish the principles of punctuation. The relation of the other sentences in the paragraph to the topic sentence will emphasize the principles of unity. In the study of Literature ten selections will be made from the list of College Entrance Requirements. These ten selections will be studied from the standpoint of subject-matter, form, structure, and appreciation.

Course 2.

(a) COMPOSITION.—The work in composition will begin with the paragraph and advance toward the theme. The general principles of Rhetoric will be studied. The principles of unity will be especially emphasized in the relation of the sentences in the paragraph to the topic sentence, and in the relation of the paragraphs in the theme to the purpose or point of view which characterizes the theme.

(b) LITERATURE.—In the course in Literature a careful study will be made of the following works and their authors: Shakspeare's *Macbeth*; Milton's *Lycidas*, *Comus*, *L'Allegro*, and *Il Penseroso*; Macaulay's *Life of Johnson*, or Carlyle's *Essay on Burns*; Burke's *Speech on Conciliation with America*.

Pupils are required to solve numerous problems which involve putting questions into equations. Graphical methods and illustrations, particularly in connection with the solution of equations, are used. The text used is Wells's *Algebra for Secondary Schools*.

Course 2.

PLANE GEOMETRY.—The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons and the measurement of the circle; the solution of numerous original exercises, including loci problems; application to the mensuration of lines and plane surfaces. PHYSICS

ELEMENTARY PHYSICS.

This course deals with the elements of physics as presented in any standard text-book. The text and laboratory manual edited by Professors Millikan and Gale are used.

Explanations, demonstrations and quizzes are

given in the classroom in such a way as to familiarize the student with the methods of physical investigations, and to teach her to think accurately and independently.

COLLEGIATE COURSES

It is the aim of the curriculum to give the student freedom to choose lines of work which are in accord with her natural tendencies and previous preparation, and yet to give systematic training in the chosen line. Under the guidance of the chosen course, a student should secure a broad, general training with a central point of view, and should be prepared for any special work which she may desire to pursue after she has finished the college course. To this end a form of the so-called "group system" has been adopted.

The curriculum offers six courses: A, English; B, Modern Languages; C, Ancient Languages; D, History and Economics; E, Mathematics and Physics; F, Science.

Candidates for the degree of A. B. must complete sixty-one hours of work in conformity with one of the above courses. Not more than sixteen nor less than twelve hours may be taken by a student without

special permission from the faculty; and not less than ten nor more than eighteen hours may be taken under any circumstances by candidates for the degree. Although there are two or three slight exceptions, each course contains thirty-one hours of required work, and thirty hours of elective work.

The thirty-one hours of required work are distributed as follows: Sixteen hours in the freshman year, nine hours in the sophomore year, three hours in the junior year, and three hours in the senior year.

The thirty hours of elective work are distributed as follows: Three hours of limited elective work in the sophomore year, six in the junior year, and six in the senior year; three hours of free elective work in the sophomore year, six hours in the junior, and six in the senior year.

No student will be allowed to take any elective course without the consent of the head of the department in which the subject is elected.

ENGLISH

PROFESSOR CRAWFORD.

The aim of the work in English is twofold: first, a study of Literature, and, second, practice in Composition. Between these two a close relationship will be constantly emphasized with the end in view that the student's advancing knowledge and appreciation of the one shall find more adequate expression in her corresponding development in the other. The courses in Literature, therefore, are designed to give, first, a general survey of the History of English Literature emphasizing the chronological order and the relative importance of the different periods. In subsequent courses more concentrated study will be given to the representative writers of these periods with a view toward pointing out in what sense these writers are

thus representative. In Composition, with each successive course, correspondingly advanced stress will be placed upon the proper organization and arrangement of material emphasizing accuracy in reference and unity in structure. Beginning with writing from a definitely stated purpose the work will advance toward the preparation of a thesis. Consultations in small groups will be an important feature in Courses I and II, while individual consultations will characterize much of the work in Courses III and IV.

I. THE HISTORY OF ENGLISH LITERATURE FROM THE BEGINNINGS TO MODERN TIMES. In this course a text-book will be used, and definite readings in poetry and prose will be assigned.

Three hours a week throughout the year, with an additional hour each week for consultation.

Required in the freshman class in all courses.

II. (a) ENGLISH POETRY FROM DRYDEN TO 1830.

Three hours a week. First semester, with additional hours for consultation.

(b) ENGLISH LITERATURE FROM 1830.

(b) NON-DRAMATIC POETRY FROM SPENSER THROUGH MILTON.

Three hours a week. Second semester. Junior elective.

One scholarship, also paying tuition, is offered to those applying from any of the Southern States.

A scholarship is held also by each of the following schools:

The Lynchburg High School; The Norfolk High School; Miss Ellett's School, Richmond, Va.; Stuart Hall, Staunton, Va.

All scholarships are awarded for one year only, but may be held a second year if the student maintains a sufficiently high standard of scholarship.

GOVERNMENT

The discipline of the school, as well as its other phases, aims to be educative, and students are led to be self-directing as far as possible. To this end as much freedom from rules is given as is consistent with the regular life of the school.

A Student Government Association has been organized which controls order and promptness in all places not directly under the control of a member of the Faculty, by laws of its own making which have been approved by the Faculty.

All trips away from the college, whether to Lynchburg or elsewhere, and the reception of guests, are subject to the permission of the President and her requirements regarding chaperonage.

RELIGIOUS LIFE

While not sectarian, the school emphasizes the principles of Christianity and tries to have them exemplified in its life. Daily devotional exercises are held every evening at seven o'clock. Church services are held every Sunday both morning and evening. Attendance is required at the daily and Sunday services.

Classes are organized for Bible study. Three-hour courses are offered as elective work counting toward the A. B. degree. One-hour courses, open to all students, are offered as follows:

HEALTH

The health of the student is considered of prime importance. A physician who has had the best training and wide experience resides on the campus and has charge of the health of the students. All students are required to take physical examinations upon entering the college and the exercise is prescribed by the physician.

Owing to the possibility of much out-door life, the exceptionally fine climate, and the excellent water supply, students keep uniformly well, and many students who could not take college courses in places more confining, or of more rigorous climate, can work here and steadily improve in health.
